REPORT OF ROAD AGENT

Your Road Agent wishes to report that he has replaced a total of ten culverts that were in need of repair.

The McVeagh road has been widened, graveled and graded, a total of 650 yds. of gravel was used to continue the improvement of this road through the swamp and extended to higher ground toward the Dublin town line.

A road was built at the Russell Reservoir Project. The road was completed to Building Lot 17 using a total of 17,000 yards of gravel.

The villages have both been tarred this year, 10,000 gallons of tar were spread on the roads.

The Eastview Bridge was torn up and we replaced stringers and planks. This was also done on the Chesham bridge.

On No. 4 hill we did away with the small bridge and replaced it with a culvert which we feel will work equally as well.

The water trough was moved from Edgar Seaver's property to the spring at Child's Bog.

Mrs. Allen donated her time and skill to painting a Harrisville Highway Dept. sign which will be hung on our town garage.

Respectfully submitted,

RALPH J. CLARK
Road Agent

REPORT OF THE SCHOOL SUPERINTENDENT

Two of the major problems faced by school districts are:—the constant “turn-over” in the teaching staff, and secondly, the growth of the school population. Harrisville has been fortunate in being able to retain all of its staff members for the past two years and its classroom teachers for over five years. This represents a very worth-while saving in education and funds. The Wells Memorial School has a fully certified, well-trained and very capable staff of teachers which the district should make every effort to retain.

During the past ten years there has been a small but steady growth in school population. In 1950 some 62 pupils were enrolled in the local school and by 1960 the census indicates that the enrollment will be 90 pupils. While this may not seem many in numbers alone, it does represent a 45% increase in elementary school population and exceeds the planned capacity of the building. A complicating factor is the fact that these pupils must be divided among three teachers so that no teacher has an excessive number of grades or pupils. By 1960 no such equitable division is possible and some teacher is faced with at least three grades and over 42 pupils. Any pupil in such a class is being denied an opportunity for a sound elementary education.

The census figures indicate that this increased school population will continue with us, so that a permanent solution to the problem becomes necessary. Only two permanent solutions seem possible. One of these is to send pupils to neighboring junior high schools; the other is to build an additional classroom.

While no one likes to face increased taxes, Harrisville has the financial ability to support an excellent educational program and is not a “poor” community. Among the 230 school districts in New Hampshire, Harrisville is 24th in taxable wealth per pupil with \$31,000 of taxable property per pupil compared to a state median of \$17,000. These figures indicate ample “ability to pay for education” and Harrisville has always shown a “willingness to pay” for the type of education America’s children must have to safeguard themselves and the future of this country. In the coming annual meeting, the school district must face the second problem, that of pupil population growth.

PRINCIPAL'S REPORT

January 7, 1959—Harrisville, N. H.

TO THE CITIZENS OF HARRISVILLE:

Again I have the pleasure of informing the citizens of Harrisville about Wells Memorial School and the problems that face it.

We opened in September with an enrollment of 79, distributed in the following areas:

Mr. Wyman's room—20—grades 6, 7

Mrs. Sabin's room—28—grades 4, 5

Mrs. Libby's room—31—grades 1, 2, 3

Since then we have lost several pupils but have enrolled new ones so that the enrollment remains about constant. Both Mrs. Libby's and Mrs. Sabin's rooms have been overcrowded. When overcrowding such as we are experiencing at present exists it is difficult to get results that are satisfactory to parents, pupils, and teachers. Teacher load must be lessened if our educational results are to be up to those we strive for.

This year we have been fortunate in having two cadet teachers assigned here from Keene Teachers' College. Miss Janet Brown has been with us eighteen weeks, and Mr. John Wondolowski has been working with us for nine weeks. During the last nine weeks of the year Mr. Gordon Bean will be working in Mr. Wyman's room. These cadets have proven invaluable in their services and aid to Wells Memorial School. We have also had Mr. Herbert Werden as an aide from the local Teachers' College working in the fields of language, arts, science, and social studies.

The teachers have had the pleasure of attending two local union-wide workshops in art and music. These have been held after school hours at Wells Memorial School and Chesterfield Center School. These workshops assist teachers in keeping abreast with new methods and ideas.

The instructional program at Wells Memorial School remains superior. Few small schools offer such variety in subjects constantly widening your children's experiences.

Our annual Christmas operetta was cancelled this year because of illness among faculty members. If all goes well we may present an operetta in the Spring.

Under the able direction of Mrs. Harold Walker a booth at Cheshire Fair was set up for Wells Memorial School. This booth was superior and won prize money. Public relations such as these are important to your school and town.

This year under the supervision of our new Helping Teacher, Mr. Damon Russell, our science program is being extended in the union. New equipment, demonstrations, and a new pro-

gram in science has added to the interest in this area. We have a new mobile science unit at Wells Memorial, and now all science materials are available quickly in all rooms.

The children of grades 4 to 8 had the wonderful experience of a week of outdoor education at Camp Union in Greenfield, New Hampshire. This project was made possible by generous contributions both personal and organizational. Mrs. John Colony, Jr. sincerely deserves much credit for making this possible for the children of Harrisville. She collected a great deal of money and put much time and energy in making this treat a reality.

As principal, I am sometimes disturbed when parents fail to bring school problems concerning their children to me for help and guidance. The proper procedure, when a school problem develops, is for the parent to seek help from the teacher or principal. If we fail to help, the problem might then be taken to the school superintendent or school board. Failure to follow this pattern prevents me from giving prompt attention to the difficulty.

We are always ready to arrange for conferences with parents. We sincerely enjoy having parents visit our classes and discuss school problems with us. I urge all parents to bring any school business to me first, so that I may have an opportunity to act on the situation before hearing about it through local gossip.

YOU CAN HELP PREVENT FOREST FIRES

Twenty-five percent of all forest fires in New Hampshire are caused from careless debris burning—brush, paper, leaves, grass, etc. Most of them are started without the required permit from the local forest fire warden. The cost of extinguishing these fires annually runs into large sums of money.

According to law, responsible parties must pay the cost of putting them out. In addition, violators may be subject to court prosecution with fines running as high as (\$200) two-hundred dollars.

In the interest of fire prevention why not eliminate burning at home? Use your town dump. It has been set up for your personal convenience. It provides a suitable place for the disposal of dangerous inflammable waste material and other useless items which accumulate around the home and local stores; brush, etc. cut on your property. Eliminate the hazard of burning yourself. It will be easier for you personally and financially.

If, however, you do burn on your premises:

1. Secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty. Use your town dump.
